

iZZi Ride

Cookies Policy

Effective date: July 9, 2024 • <https://ezride.pro>

iZZi Ride Inc., a Pennsylvania S corporation (“iZZi Ride”, “we”, “us”) — 807 Durham Place, Bensalem, PA 19020, USA

1. About this policy

This Cookies Policy explains how iZZi Ride uses cookies and similar technologies on the <https://ezride.pro> website, and how comparable identifiers are used in the iZZi Ride mobile app. It should be read together with our Privacy Policy.

2. What are cookies?

Cookies are small text files placed on your device when you visit a website. They let the site remember your actions and preferences over time. “Similar technologies” include pixels, local storage, and mobile SDK identifiers that work in a comparable way inside an app.

3. Types of cookies we use

- **Strictly necessary:** required for the website to work — for example to keep you signed in, secure your session, and remember your basic preferences. These cannot be switched off in our systems.
- **Functional:** remember choices you make (such as language) to give you a better experience.
- **Analytics / performance:** help us understand how the website and app are used so we can improve them. We use Google Firebase tools for this — including Firebase Cloud Messaging (push delivery) and, where enabled, Firebase Analytics and Crashlytics for usage statistics and crash diagnostics.

We do not use advertising cookies, and we do not sell your personal information for advertising.

4. Cookies and SDKs in the app

The mobile app does not use browser cookies, but it uses software development kits (SDKs) that may store identifiers on your device, including:

- **Google Firebase** — push notifications and core app services (a device push token is generated to deliver notifications).
- **Stripe** — to securely process payments.
- **LocationIQ** — to provide maps, geocoding and routing.
- **Google Sign-In** — to let you sign in with a Google account.
- **Twilio** — to send SMS and one-time passcodes for phone verification.

5. Third-party cookies

Some cookies and identifiers are set by the third-party providers listed above (such as Google, Stripe, LocationIQ and Twilio). Their use of data is governed by their own privacy and cookie policies, which you can find on their respective websites, and which we encourage you to review.

6. Managing cookies

- **Website:** most browsers let you block or delete cookies through their settings. Blocking strictly necessary cookies may stop parts of the site from working.
- **Where a cookie notice is shown** on the website, you can use it to accept or manage non-essential cookies.
- **Mobile app:** you can control push notifications and location access in your device settings, and you can reset your advertising identifier where your OS allows.

7. Future technologies

We may use additional analytics, security, fraud-prevention, performance-monitoring, and operational technologies in the future. This Cookies Policy may be updated accordingly without prior notice, except where prior notice is required by applicable law.

8. Changes and contact

We may update this Cookies Policy from time to time and will post the updated version with a new effective date. Questions can be sent to support@izziride.com, or by post to iZZi Ride Inc., 807 Durham Place, Bensalem, PA 19020, USA.
